# WHO ARE WE?

## YOUR FULL-SERVICE BLIND COMPANY

Founded over 40 years ago, Brightshine is your full-service blind manufacturing, maintenance, and installation company.

At Brightshine our approach to our clients is different to any other company. We are different. As a family run business, we aim to treat every customer like an extension of our family. We want to ensure that the whole process of buying new window treatments is as easy and stress free as possible. With over 40 years in the industry, we have a great understanding of best practice manufacturing, and we are here to help give expert advice for the best type of product and style for your home.

Our product range consists of Shutters, Wooden Venetians, Aluminium Venetians and Roller Blinds and we provide a three-year warranty on all products.

We have a wide range of colours and fabrics available and we also offer a colour matching service for your Wooden Venetians and shutters to ensure you get the best finish possible for your home.

Call us on 0800 483 638 to organise your free in-home consultation today.

# SHUTTERS

## CLASSIC, STYLISH AND CONTEMPORARY

The classic plantation Shutters are a real showstopper and very much the product that everybody wants in their home. Beautiful craftsmanship and a stunning product, these Shutters really are a beautiful piece of carpentry that will undoubtedly add value to your home. They are incredibly versatile and can be configured in many ways to make the most of light and how you need to use the window space.

All our shutters are custom made and finished with either paint or a natural stain. We have a large range of colours available, and we also offer a colour matching service to match in with your architraves or walls.

Our Shutters can be made from two types of timbers. Basswood is the superior option; it is an excellent light weight hardwood which makes it easy to manoeuvre. It is very dense and durable with a consistent colour and grain making it perfect to paint. Paulownia is our other timber option; it is a very light weight wood but is still very strong considering. It isn't as high quality as Basswood and cannot be adapted as easily to fit larger windows or more complex configurations but is a great option for more simplistic window shapes and sizes. We also have a PVC option too.

Brightshine Shutters are imported, and we've hand selected and visited the factory where they are produced. We have inspected their manufacturing processes and continue to do so yearly. We know they have strict quality control measures in place to ensure the best possible product. We offer a three-year warranty for Shutters and believe them to be a truly outstanding product.

## CUSTOM DESIGNED AND INNOVATIVE

We understand how exciting building and renovating can be and just how breathtaking some of your properties are. Many features in new builds can be angled windows and you often find that trying to get a window treatment to work in with your design can be difficult.

Here at Brightshine, angled shutters are our specialty, and we love taking a magnificent window space and installing our shutters on them to truly make a feature within your home. We offer all the same options for angled Shutters as we do with our basswood standard shutters.

With all of our Shutters, the quality is not only in the product itself, but the skill set of our talented Sales Representatives. Their expert knowledge will help you to ensure you have the best configuration for your window space and that it will look sensational.

We offer free in-home consultations. You can call 0800 483 638 to arrange your appointment time today.

# TECHNICAL DETAILS

## RANGE OF OPTIONS

Our Shutters come in a range of options. Here is just a brief overview of what we can offer for you.

### Shutter Sizes:

- Full Height
- Tier on Tier
- Cafe Style
- Special Shape

### Louvre options:

- 64mm
- 76mm
- 89mm
- 114mm

### Installation Methods:

- Hinged Direct
- Bi-Folding
- Bi-Passing
- Fixed Panels

### Frames:

- Hang Strip
- Camber Deco
- Bull Nose Z
- L – Frame

During your in-home consultation our sales representatives will be able to help advise you on all of the above details and which styles would work for your shutters based on the overall size and type of your window/doors.

We charge a per square metre rate for our shutters irrespective of how they are configured so that means there are no hidden costs for the different types of frames / louvres / installation methods tracks or louvre sizes used. This way you can choose the best fit & design for your space without being hindered by additional costs for certain styles.

# WOODEN VENETIANS

## MAKE YOUR HOUSE A HOME

Painted Wooden Blinds are the highest quality blind product on the market. The wood we use is both stable and lightweight to ensure straight lines and easy maneuverability.

We offer two slat sizes 50mm / 63mm and our standard paint finishes are Resene White and Resene Alabster. We also offer a colour match service for an additional fee of 15%.

We hand spray our blinds here in our factory in Auckland giving the wood time to absorb the paint. This helps to avoid chipping and the paint lifting from the slats. The paint we use also seals the blinds making them perfect in wet areas of your home, i.e., Laundry, Bathrooms and Kitchens.

Our Wooden Venetians are very low maintenance and require spot cleaning with a damp cloth to keep them in tip top condition.

Wooden Venetians are a great option if you want the Shutter look for less. They provide texture and classic style to a room, whilst still letting you maintain that spacious and minimalist look.

You'll be pleasantly surprised at the cost of these blinds too, due to these being custom made here in Auckland, you are dealing directly with the manufacturer which allows us to provide incredibly competitive pricing.

You can check out our pricing on our website quote tool. All you need to do is pop your width & drop in and our website will provide you with an instant price across our entire product range.

#### OUR COLOURS

## FAUX WOOD(PVC) VENETIANS

### GREAT LOOK, FOR A GREAT PRICE

Faux Wood gives you that stylish wooden venetian look for less. This product is ideal for people wanting to place blinds in areas with a lot of moisture like Kitchens, Bathrooms and Laundries. They also work well in places that can be easily damaged by pets, children, and teenagers.

Because it is Faux Wood (PVC), it is much heavier than the wooden alternative and is not as light to pull up and down. As a result of this the components wear quicker on a faux venetian.

These blinds will give you all the same practical benefits as the other venetians in our range – giving your home that warm stylish look, while providing you with added privacy at an affordable price point.

This product only comes in white.

# ALUMINIUM VENETIANS

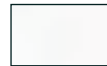

## A TIMELESS CLASSIC

25mm Aluminium Venetians have been a favourite in New Zealand for years. In the recent years, the blinds have become more streamlined and better looking and are now enjoying a renaissance in this country.

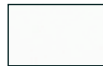

They're still a great way to give you that desired privacy or let the right amount of light into any room within your home. Plus, they can help control the temperature by opening them in summer and closing them in winter - keeping you and your room nice & warm.

The great thing about Aluminium Venetians is the quality and durability. If cleaned and cared for, they will last a lifetime. The blinds come in 25mm slats and a range of colours.

# ROLLER BLINDS

## MINIMALIST, DURABLE AND STYLISH

Roller Blinds are a stylish and minimalist window solution. We offer three types of fabrics, Blockout, Sunfilter and Light Filtering.

Rollers are non-intrusive as a window solution and roll away to nothing at the top of the frame allowing a room to feel open and spacious. Roller Blinds can be easily spot cleaned with warm water and a plain cloth. Window Cleaner also works extremely well to spot clean.

We also offer a motorisation option. Our three types of Motors are; Battery Operated, Hard Wired (remote operated) and Hard Wired (home automation).

Our fabrics have all been hand selected to provide texture and colours that suit NZ homes and style. We have used a lot of Resene/Dulux colour charts to ensure we match popular wall colours as well as providing contrasting colours that tonally match with the same popular paint colours.

Our Blockout & Lightfilter fabrics come in both a standard and a luxury range. Our luxury range offers more textured options to either complement or provide an alternative to curtains. Apartment style living is on the up and there usually isn't enough space around the windows to draw curtains back. We have created our luxury collection to offer a softer look for blinds over doors/windows that still provides a high-end finish for less than curtains.

# BLOCKOUTS

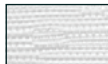

## GREAT OPTION FOR BEDROOMS AND SPACES YOU WANT TO DARKEN

Privacy Blockouts are a solid piece of fabric with a PVC & polyester backing to keep out as much light as possible (you will still get some light that creeps in around the sides due to componentry). Blockouts are perfect for bedrooms and rooms you want to make private at night. We can double up your blackout with a sunfilter so you can get the best of both worlds. Sun protection during the day and privacy during the night.

All of our roller blinds can be motorised to allow for universal control of your blinds at the touch of a button. We highly recommend motorised blinds in living areas or over doors, so you can easily open these communal areas up while hosting. The minimalistic nature of roller blinds won't disrupt your indoor/outdoor flow as they roll up into almost nothing at the top of the window frame. With motors there are no cords or chains in the way and no need to tie or clip back loose hanging fabric.

Each fabric has been selected to ensure they add warmth and texture to your home. Our fabrics are just that, fabric not canvas or plastic. We've got both textured luxury fabrics and plain fabrics to suit any style of interior and budget. We have a mixture of white backings and same side colour backings so if you have any body corporate restrictions, we can work with them.

### OUR TOP FIVE COLOURS

# SUNFILTERS

## THE OPENESS FACTOR BRINGS THE OUTSIDE IN WHILE STILL PROTECTING YOUR FURNISHINGS

Sunfilter Roller Blinds are a great option if you need sun protection for your floors and furnishings. We have a stunning range of classic fabric colours from the neutral range of White, Beige & Sandstone right through to the contrasting tones of Charcoal & Black.

Our Black and White sunfilter fabrics are our most popular and come in two levels of openness (5% or 10%) the higher the percentage the more open the weave is which allows you to see more through the blind. These options are perfect for people who want to adjust how much you can see through the blind to either cater for a beautiful view (10%) or have more privacy (5%).

Our Sunfilter blinds are UV rated and colour fast to Australasian standards. They are designed to protect your floors, carpets and furnishings from sun damage and also do a great job of reducing glare.

Sunfilters are durable and very easy to clean. They don't collect dust and if anything spills on them all you need is some warm soapy water and a kitchen cloth to spot clean them.

### OUR TOP FIVE COLOURS

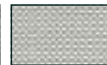

WHITE

GREY

BLANC

SANDSTONE

BLACK

# LIGHT FILTERING

## KEEP YOUR SPACES PRIVATE WHILE STILL FEELING OPEN & FULL OF LIGHT

Light Filtering Blinds are right in between our Blockout and Sunfilters, we often describe them as being similar to frosted glass in a bathroom. This fabric will allow light to pass through it but you cannot see through the fabric.

Light Filtering fabrics are a great option if you need to cut the harsh sunlight out but also require some privacy (i.e if you face onto a road or into your neighbour's property). These blinds are perfect for East or West facing windows that get a lot of direct sunlight, you can just roll the blind down to where you need it to reduce the harshness of the sunlight in the mornings or afternoons. Then at night you get full privacy from the blinds.

We have a few different fabrics to choose from, some are textured to add a little bit of depth to your room, and we also have the option of plain fabrics to keep everything nice and simple for you. Whatever your needs we have something suitable for every interior design.

# WHY BRIGHTSHINE BLINDS?

We started off as a blind cleaning and repair company, more than 40 years ago. Through the first 10 years of business we truly got to learn about the core features and components that make a great blind. With that wealth of knowledge & experience, we have evolved over time to become your full service blind company creating custom window treatments for every home right here in New Zealand.

All of our blinds are made right here in New Zealand, having them made locally means that our turnaround times can be really pushed to under 10 working days and not to mention, you are dealing directly with us, the manufacturer.

All of our fabrics are handpicked, making our product truly unique to us. We are here to help offer advice for the best fabrics, colours, design and configurations for every product and for every window.

No appointment necessary, you can see us online at [Brightshine.co.nz](http://Brightshine.co.nz) or you can see us at the Home Ideas Centre. We always make ourselves available so please just call us on 0800 483 638 and we can set up a time.

“An excellent company to work with. Very professional and prompt with their service and guidance. I would strongly recommend doing business with them.” - F. Tania (Auckland)

“Really impressed with the quality and service of our shutters. Our windows were odd shapes and these beautifully crafted wooden shutters fit and work perfectly. Although by no means cheap, the price was also better than the competitions, and very good value considering the quality of the product and the service” – A. Williams (Mt Eden)

“The team at Brightshine were great to work with from start to finish. They were friendly and professional, with regular communication and updates, and they installed my shutters within the estimated timeframe. I'm delighted with my new shutters as they have instantly transformed the windows and rooms. I have no hesitation with recommending Brightshine Blinds and Shutters.” Tracey M (Cambridge)

“Could you please pass on to the reps that fitted our shutters that we love them. They are amazing and we are really happy with how they look. We'll definitely be back to buy more as we renovate the rest of the house. Thank-you again.”  
- J. Parson (St. Heliers)

# HELPFUL TIPS FOR CHOOSING PRODUCTS

## A BROAD OVERVIEW

Product	Light Control	Full Privacy	Motorisation Available	Recommended For:	Villas Unrenovated	Bungalows Unrenovated	Villas Renovated	Bungalows Renovated	New Builds (Inc. Apartments)

Check out our above guide to help give you some pointers on what the best window treatment is for your needs and style of property. Our recommendations for particular properties is based on a brief overview of the typical style of home and window size/design. Although all of our blinds are suitable for any property type in theory, we have provided a quick guide to help point you in the right direction based on previous experience. We also offer in-home consultations and colour advice to ensure that whatever products you choose work perfectly with your home, interiors, and family.

# DIY BLINDS

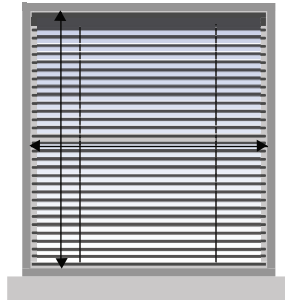

DIY AND COLLECT OR WE CAN SEND  
TO YOU VIA COURIER

## FOLLOW THESE INSTRUCTIONS IF YOU WANT YOUR BLIND TO HANG INSIDE THE WINDOW

Three simple steps to an accurate  
measurement

Follow these instructions if you  
want your blind to hang inside.

1. Measure the width of the window from jamb to jamb in three places. Note down the shortest measurement - this is the one we'll use.
2. Measure the drop by taking the measurement from the top jamb to the bottom jamb (or window sill) in three places. Note down the shortest measurement.
3. Send us the measurements and we'll start manufacturing them right away!

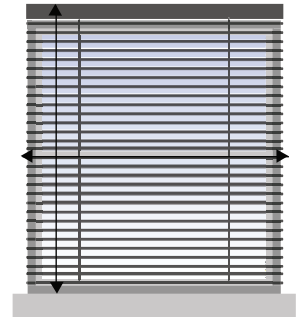

Important note: You will NOT need to make adjustments to the width or length of your blind measurements. Let us do this!

## FOLLOW THESE INSTRUCTIONS IF YOU WANT YOUR BLINDS TO HANG OUTSIDE THE WINDOW

Three simple steps to an accurate  
measurement

Follow these instructions if you  
want your blind to hang outside.

1. Measure the exact width of where you'd like your blind to be (architrave to architrave). Note down the measurement.
2. Measure the exact drop from the top of where you want your blind to be to the bottom. Note down the measurement.
3. Send us the measurements and we'll start manufacturing them right away!

Important note: You will NOT need to make adjustments to the width or length of your blind measurements. Let us do this!

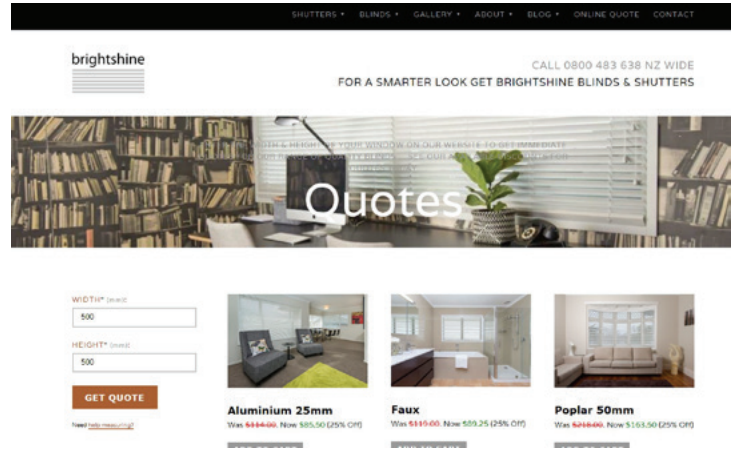

# BRIGHTSHINE ONLINE

## USING THE INTERNET TO MAKE YOUR LIFE EASIER

Brightshine's website contains a wealth of knowledge and it's not just a sales pitch. At [www.brightshine.co.nz](http://www.brightshine.co.nz), there are swatches available for all our product ranges, measuring & installation guides as well as quick forms to fill in to in-home consultations, all at the tap of a few buttons.

We also have a quote tool available; this allows you to pop your measurements in and get an instant price across our entire range, handy if you are trying to decide what type of window solution you would like vs. what is within your budget.

If you opt to use our online quote tool to place an order, once submitted our team will aim to get back to you within 2 working days. We will then confirm all your details via email, including the price of the order and courier costs if applicable. Once you are happy and confirm everything, your order goes into production - simple as that! Now won't that make your life easier!

Find out more about our great range at [www.brightshine.co.nz](http://www.brightshine.co.nz)
